1. Before You Begin

1.1 Icons used in this Guide

You will see helpful icons used in this guide to draw attention to a subject, action or information.

The light bulb icon indicates information that is likely to make your job easier.

The exclamation icon highlights a warning or an action you need to take. When you see this icon, pay attention and proceed with caution.

The '*i*' for information icon indicates an area that assists in a decision.

2. Setting up HealthLink with 1.5.0.84

2.1 LAB, RSD, GP2GP, HDOCS, Claims and Acknowledgements

No integration setup is required in Medtech Evolution to retrieve messages from HealthLink folders. Medtech Evolution should be looking into default HealthLink folders.

If the there is a custom install of HeakthLink done by Medtech technician, these settings will be applied in Medtech Evolution by Medtech technician using Message transfer utilities.

Checking file path settings in Medtech Evolution

- 1- Click on Tools tab from Medtech Evolution screen.
- 2- Click on Message Transfer Utility icon.
- 3- Click on Settings and then select message type in Electronic Message Types/Folders section and then click on View button to view message file path. If the file path is not correct it can be corrected in this location.

3. Testing Your Configuration

HealthLink client application does not have a New Zealand test message generator at the moment. This may be included in later version of HealthLink client application.

- 3.1 Generating Lab Test Messages
- 3.2 Generating RSDAU Test Messages
- 3.3 Making HealthLink Connect Manually

4. Checking Message Views in Medtech Evolution 1.5.0.84

Medtech Evolution automatically import message. However too manually import messages in Medtech Evolution use the following steps.

- 1- Click on Tools tab from Medtech Evolution screen.
- 2- Click on Message Transfer Utility icon. **MessagesReceived** part of Message Transfer Utility will indicate number of messages are in HealthLink folder for Medtech Evolution to be import.
- 3- Click on Process button to import the messages into Medtech Evolution.

∰ = File	Home	Patient	Account	Claims	Tools Utilit	ies

7- To view the messages double click on the message entry in inbox list.

5. Using Forms in Medtech Evolution 1.5.0.84

Forms setup is done by Medtech Evolutions technicians. Medtech Evolution team has not passed HealthLink any setup instructions for HealthLink Forms or Forms Icon's.

To load forms:

- 1- Open Patient by **F2** on keyboard or by clicking on **Home** tab and **Search** button.
- 2- Once patient records are loaded click on ToolBar Tab.
- 3- Click on HealthLink forms Icon to load HealthLink Forms.
